Fulton, Locke, Monroe, Porter Seating

Colourful and Contemporary

Add vibrancy and versatility into your space with Fulton, Locke, Monroe and Porter polymer chairs. These light, contemporary pieces offer a variety of uses in educational, hospitality and workplace environments. These chairs are available in several type of legs and bases suitable for any space and budget.

Fulton is a multi-functional chair that is designed with clean lines and subtle curves. It is made with different base options: leg, sled, stool, swivel and wood.

Locke is a dynamic and ergonomic chair that integrates function and promote good posture. Swivel Locke unit is height-adjustable for user diversity.

Monroe combines the classic wooden form and modern poly look. The use of plywood and polymer materials improves the aesthetic and functional capabilities of the chair.

Porter is a bold, one-piece molded chair that is solid and super-lightweight. Available in many exciting colours to choose from.
